**Product Use & Care**

## Automobile. Boat. RV. Motorcycle

**Zwipes®** microfiber is a great new technology, with many applications that includes your automobile, boat, RV or motorcycle. Cleaning with microfiber products is fast, easy and environmentally friendly. It is sometimes described as having a magnetic attraction to dirt and dust.

Our microfiber products are extremely soft, they never scratch any surface, but at the same time they are sturdy and tough on dirt.

## No Chemicals.No Scratches.No Streaks

**Zwipes®** products attract and instantly remove dust like a magnet. From Glass, stainless steel, chrome, paint, plastic, and wood you can clean with a simple rubbing motion. The miraculous fiber eliminates the need for cleaning solutions.

Microfiber contains over 90,000 fibers per square inch, and is the softest and thickest of

## The Right Tool For The Job!

Microfiber is super absorbent, and dries in half the time or ordinary towels. Whether you are using the original **Zwipes® Microfiber Cleaning Cloth**

Or you are using the **Zwipes® Microfiber Super Sponge**

Or using the **Zwipes® Microfiber Mitt**

square inch, and is the softest and thickest of all microfibers. It is especially effective for trapping particles with static electricity, thus eliminating the need for cleaners and detergents. It is designed to adhere to a surface, literally clinging to grease, oils and film.

They are 100% streak free. Use **Zwipes®** on any wood surface, stereo equipment, windows or mirrors. Leave one in your car, take them on your boat or carry them in your motorcycle bag. Wherever you need a quick degreasing.

Whether you use them for the car, boat, RV, or motorcycle **Zwipes®** will do the job better and faster than any other product you can buy.
